

Evidence Appendix — Documented False and Misleading Claims About President Trump and His Administration

September 2026 · Prepared by swampforce.com · 250 cases · Companion to the Policy Brief

Inclusion standard. Every case is a claim about President Trump or his administration that was later corrected, retracted, settled, contradicted by an official record, or rated false / mostly false / misleading by a documented source. This appendix lists every case with its evidence links in full.

Evidence ranking (strongest first). (1) Official record — court, settlement, DOJ/IG/special counsel, FEC, government data; (2) Original transcript/video of what was said or shown; (3) Outlet's own correction or retraction; (4) Fact-check only. Primary Source is the strongest available under that ranking; Truth Source is the record used for the verdict.

First Term (2017–2021) — 142 cases
